If you want a career that puts you in a surgical setting, providing care to patients, and you are detail-oriented, Surgical Technology could be a great choice for you.

The Associate of Applied Science (AAS) in Surgical Technology is a program dedicated to becoming an integral part of a medical team. The Associate of Applied Science (AAS) in Surgical Technology program at Contra Costa Medical Career College (CCMCC) is dedicated to equipping students with the theoretical knowledge and technical skills essential for a career as a professional surgical technologist. CCMCC will prepare you to enter your surgical technology career with a program involving classroom theory, lab procedures, externship, and online learning for general education requirements.

Total Program Length: 61 weeks

Quarter Credit Hours: 111 hours

Total Clock Hours:: 1,648 (classroom:864 / lab: 224 / Externship: 560)

Program Overview

The AAS in Surgical Technology program is designed to ensure students become proficient in creating and maintaining a safe perioperative environment, demonstrating thorough knowledge of aseptic techniques, and effectively using surgical instruments and equipment. The program emphasizes the development of professional attitudes, ethical behavior, and effective communication within the healthcare team. Upon completion, students will be prepared to provide comprehensive care to patients and surgical teams, integrating knowledge across cognitive, affective, and psychomotor domains.

Career Highlights and Opportunities

According to the Bureau of Labor Statistics, overall employment of surgical assistants and technologists is projected to grow 6% from 2023 to 2033, faster than the average for all occupations.
